Technical Data Sheet (TDS)

MILD STONE CLEANER PLUS

PRODUCT DESCRIPTION

Mild Stone Cleaner Plus is a specialized cleaning product made from natural agents, non-ionic surfactants, auxiliary materials, and fragrance components. It is free from phosphates, bases, waxes, and polymers. The surfactants in the formulation are readily biodegradable.

ADVANTAGES

- Does not contain waxes, polymers, or gloss agents, preventing residue buildup.
- Maintains the natural vapor permeability of the stone.
- Enhances the effectiveness of stone impregnations and sealers when used regularly.
- Certified biodegradable surfactants.

APPLICATION AREAS

- Natural Stones: Marble, granite, slate, and terrazzo
- Artificial Stones: Engineered stone and cement tiles
- Brick and Clay-Based Surfaces: Brick, clinker, and cotto slabs
- Treated Surfaces: Impregnated or sealed floors, including those previously treated with wax or silicone-based polishes

PACKAGING

Available in 1L and 5L containers. Contact us for bulk packaging.

STORAGE AND SHELF LIFE

- Store in dry and cool conditions (5-25°C / 41-77°F) in its closed original container.
- Shelf life is at least 24 months from the date of production.

PRECAUTIONS AND HINTS

- Ensure the container is completely emptied before disposal.
- Dispose of in accordance with local regulations.
- Read the Safety Data Sheet before handling or using the product.

APPLICATION

Surface Preparation

- Ensure the surface is clean, dry, and free from dust or debris.
- Suitable for both smooth and rough, absorbent and non-absorbent surfaces.
- Can be applied on untreated, impregnated, or sealed natural and artificial stone floors.
- Compatible with marble, granite, slate, terrazzo, brick, clinker, cotto slabs, and cement tiles.

Procedure

- Mix 2 - 4 tablespoons (20 - 40 ml) of Mild Stone Cleaner in 10 liters of water.
- Wipe the surface with the solution. No additional rinsing is required.
- Regular use enhances the effectiveness of impregnations and sealers while maintaining the stone's natural vapor permeability.

TECHNICAL INFORMATION

Consumption	20 - 40 ml per 10 liters of water.
Color	Golden Yellow
Density	Approx. 1.03 g/cm ³
pH Value	Approx. 10 (when concentrated)
