

ZYAX DEIONIZED WATER

ZYAX Deionized Water is a top-notch distilled water that is completely free from impurities and minerals. Its high level of purity makes it ideal for a wide range of applications, including battery and inverter maintenance, autoclaving, reagent water, and scientific products. It is also a popular choice in laboratories for experiments and testing, as well as in medical settings for sterilizing equipment. With a zero TDS level and maximum purity, ZYAX Deionized Water is a reliable choice for any industry.

USE FOR:

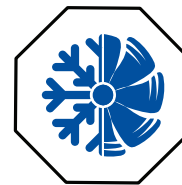

Batteries & Inverters

Automotives

Medical Equipments

Cooling Systems

HOW TO USE:

To be used as per the
specific purpose.
